

# Microwave Photonics Group

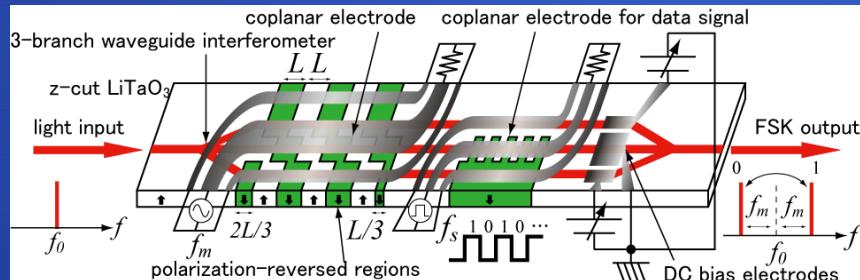

Graduate School of Engineering Science  
Department of Systems Innovation  
Division of Advanced Electronics and Optical Science

Prof. Yasuyuki Okamura [okamura@ee.es.osaka-u.ac.jp](mailto:okamura@ee.es.osaka-u.ac.jp)  
Associate Prof. Hiroshi Murata [murata@ee.es.osaka-u.ac.jp](mailto:murata@ee.es.osaka-u.ac.jp)  
Assistant Prof. Hidehisa Shiomi [shiomi@ee.es.osaka-u.ac.jp](mailto:shiomi@ee.es.osaka-u.ac.jp)

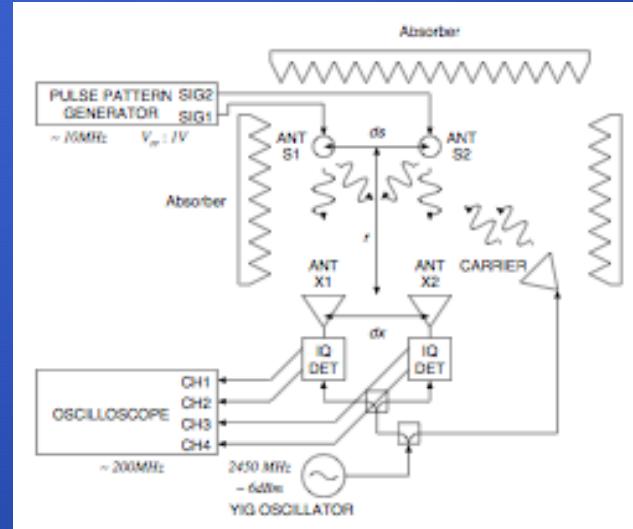

Our research group focuses on a wide range of topics in Electromagnetic-wave Engineering, Devices for Optical Systems, Circuits for Microwave Systems.

## Research Activities

- Optical Tomography
- Photonic Crystal
- Ultra High Speed Photonic Device
- Adaptive Array Antenna System
- Microwave Power Transmission
- Tunable Antenna

*Basic structure of FSK modulator using 3-branch WG interferometer & pol.-rev. structure*

*Experimental setup for blind source separation*
